Work Experience

2012-Present ***Inner Kingdom Games, Art Director***

As Art Director, I am part of the creative team behind the concepts and themes behind the expansions for the collectible card game, Shadowfist. From the concepts, I create the direction for the artwork and seek out and contract with artists and studios around the world.

I communicate directly with the artists to ensure the timeliness and clarity of the artistic vision. Once the completed artwork is received, I lay out the artwork with the card information for print. I also create graphical projects such as fliers, posters and rulebook covers.

2002-2013 ***UnitedHealthcare, Instructional Design Associate***

As part of the Training and Development team, I created online instructional documents from information provided by SMEs (subject matter experts) for the Claims Adjustment and Customer Care teams. Using HTML4 and a set style sheet, I create online documentation as part of our transition to a paperless documentation system. I worked closely with our virtual back offices in Letterkenny, Ireland and in Hyderabad, India.
